PRESS RELEASE

AMC Hires Alonso and Hughes

Anchorage, AK — AMC Engineers (AMC) announces the addition of electrical engineer, Chad Alonso, and mechanical engineer, Joseph Hughes, to its staff.

Chad Alonso graduated from University of Alaska Anchorage in 2009 where he received a Bachelor's in Electrical Engineering. He is currently working on the new Bethel Aquatic Training and Health Center, UAA Science Backfill project, and providing field construction administration support on the Access Control System Replacement at the Ted Stevens Anchorage International Airport.

Joe Hughes, EIT, has a Bachelor's in Mechanical Engineering from Montana State University. He is currently working on the new Kodiak Near Island Research & Administration Facility. Hughes is designing the plumbing system using Revit, a building information modeling (BIM) program. He also assisted with the schematic design of the Kenai Library Expansion and the Providence Alaska Medical Center Catheter Lab #1 Remodel.

AMC is an employee owned, award winning Alaskan design firm specializing in mechanical, electrical, security, control and telecommunications engineering. AMC has 29 years experience designing schools and universities, hospitals, airports, recreational and other facilities.
