# PRESS RELEASE

## Electrical Engineer Earns PE Designation

**Anchorage, AK** — AMC Engineers announces Jessica Hannan has passed the NCEES Principles and Practice of Engineering exam.

Hannan is a graduate of the University of Idaho with a bachelor of science in electrical engineering. She is a member of the USGBC Cascadia Chapter and the Society of Women Engineers Local Chapter. Her specialty areas include interior and exterior lighting, integration of daylight and occupancy sensors, multi-media presentation and sustainable design.

Jessica played a significant role in recent projects such as the UAA Health Sciences Building, Ketchikan Aquatic Center, and the Seward Community Library and Museum. She is currently involved in the design for the UAA Athletic Sports Facility and Juneau State Library and Museum.

Hannan served as a contributing engineer on the Clark Middle School Renewal and the Susitna Valley Jr./Sr. High School. Both projects received national lighting awards from the Illuminating Engineering Society.

As a LEED accredited professional, she served as the mechanical/electrical LEED Coordinator for Susitna Valley Jr./Sr. High School and Fred and Sara Machetanz Elementary School with both schools achieving LEED Silver certification.

AMC Engineers is an award-winning Alaskan design engineering firm specializing in mechanical, electrical, security, control and telecommunications engineering. AMC has 30 years experience designing schools, universities, hospitals, airports, recreational and other public facilities.
