About Us AMC Engineers

AMC Engineers is committed to the design of well-engineered, energy efficient and sustainable mechanical, electrical and plumbing (MEP) systems tailored for new, remodel, or expansion projects.

We aim to meet our client's design goals while minimizing environmental impact throughout the life of the facility. AMC has a solid team of highly trained professional engineers and designers to help select the most appropriate MEP systems which are sustainable, energy efficient, and applicable for local operations and maintenance.

AMC has a long and successful track record providing engineering services for community museums and libraries throughout Alaska including Juneau, Sitka, Cordova, Petersburg, Nome, Wasilla, Kodiak, Seward, Kenai, Homer and Anchorage.

Recent Project Experience:

- Father Andrew P. Kashevaroff State Library, Archives and Museum, Juneau, Alaska
- Nome Richard Foster Building, Nome, Alaska
- Cordova Community Center, Cordova, Alaska
- Wasilla Public Library, Wasilla, Alaska
- Petersburg Library, Petersburg, Alaska
- Kenai Library, Kenai, Alaska
- Kodiak Library, Kodiak, Alaska
- Seward Community Library and Museum, Seward, Alaska
- Homer Library, Homer, Alaska
